🧐 Project review feedback

Project coded by Indira Castañeda Suárez

Reviewed By João Lopes

Open final project

What is your feedback about this project?

There's a lot of quality in the code. The excellent structure and the use of classes to style are ideal approaches for having readable and easily maintainable code. Visually, it's a fantastic project! It's been only three weeks and is not that easy to have such high quality on a project! Really cool the button effect, I really enjoyed it!
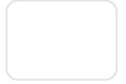

Notes from the reviewer

Keep it up! 3 weeks done and a lot more to go! You showed incredible skills and I'm super happy for you! You wrote a great project and I'm curious to see your next ones!
